## PROFILE

I am a highly methodical UX/UI Designer and a creative security analyst eager to contribute to projects and team successes through a smart and unified approach, attention to detail and excellent project management skills. I have proficiency in examining data/records -- inclusive of tools and personnel to reach this aim -- and focusing research methods towards organizational and departmental objectives. Most importantly, I am motivated to learn and over-achieve by using advanced critical thinking skills and educational passion.

## EXPERIENCE

### UX/UI DESIGNER

- Worked collaboratively to develop graphical user interfaces for NGO sites
- Created product designs, feature designs, competitor analysis' and user research
- Delivered succinct and organized presentations of products

### DATA SECURITY ANALYST

Rogers Communications Canada Inc. 2018 - Present

- Performed data analysis using SQL and DBMS and prepared varied results files for police agencies, RCMP detachments, CRA, etc.
- Coordinated the completion of criminal investigations by providing tracking/coordinate details, subscriber information, and running database queries in real-time

### TERRITORY SALES MANAGER

Dyson Canada 2015-2017

- Contributed to an annual 35% sales increase in retailer accounts.
- Liaised with store managers and visual merchandiser managers in an effort to effectively match the usage of model products, company merchandise, and marketing material with directorial vision and store standards.
- Managed team of 15 sales representatives over the region of Peel

## EDUCATION
